

XCHANGE SOUTH AFRICA

More Than Just The Best Internships

WELCOME!

XChange SA is an International Human Resource Management company which currently operates mainly between universities and agencies in Europe, Southern Africa, America and companies in and around Cape Town, Boland, Garden Route, etc. In the past **20 years**, we have worked with young people from **63 different nationalities** and all ages already. We offer internship in **32 categories**.

After establishing very successful university programs, we now also offer more programs:

- **Internships** for university students, including medical internships
- **Thesis logistics & Management** -Assisting students in putting together a research project and/or logistics for a master- or doctorate thesis in SA.
- **Volunteer Programs for those not studying**
- **Programs for local students to get work experience or participate in a combination of work, study and sport.**

OVERSEAS STUDENTS

XChange's would assist you with the following in South Africa:

- Arrange student work, university & school placements, accommodation, and co-ordinate the process on behalf of the student and the firm.
- Provide the necessary documentation that helps you to arrange your flights and visas. We stand surety for our students in case of repatriation. We also provide a lot of information about SA, Cape Town, etc prior to leaving home. We assist with the visa process and prepare several documents for you.
- Students are met at the airport on their arrival and taken to their accommodation.
- They are briefed on local security issues and are given a supplementary information pack of brochures, personalized information, phone cards, airtime and maps. We spend several hours with each student on arrival to ensure that the first impression of Cape Town or South Africa is positive and lasting. We even take them shopping for food on arrival.
- We accompany you to your work or school on your first day and monitor your progress.
- XChange SA facilitates a social program for the students in South Africa, distributes an internal weekly news bulletin, and arrange cultural and social outings to ensure that you enjoy your stay in the country.
- We have our own housing that is more affordable than most others found in Cape Town.

LOCAL STUDENTS

We can offer you the opportunity to put a program together that is tailor-made just for you. It could be a combination of **studying and volunteering; studying and doing an internship in your field of study; playing sport and doing a general internship or volunteer work.**

We would consider your wishes when assisting you with this process. Internships or volunteering can either be based on your background or interests and thus **tailor-made** just for you or you can select from some of the volunteer programs we place our students with. That can include working in sport, work in agriculture, in schools, in special needs facilities, with adults or children, with animals, in tourism or adventure tourism.
